

# CODE COMPLIANCE WITHOUT SACRIFING DESIGN

## About this Course

Those attending will learn how door hardware can be artfully and beautifully designed while still being code compliant. Architects no longer need to sacrifice aesthetics for function.

## LEARNING OBJECTIVES

- How to select and specify decorative levers
- Understanding the difference in cylindrical, mortise and tubular construction
- Ensure ADA and code compliance

Italian Design | American Engineering

We are a global decorative door hardware brand specified by premier architects and designers worldwide. We provide the commercial marketplace decorative hardware built to demanding ANSI standards.
